

Floating Life Charter&Broker: a great new "central charter"

The 33 metres "fast commuter" MARHABA At the Naples America's Cup World Series 7th to 15th of April 2012

The amazing Ocea 33 metres commuter Marhaba is available for an exclusive "yachting pole position" in Naples – from the 7th to the 15th of April. The yacht will be at the Naples America's Cup World Series ready for sailing lovers with no delivery fees. What a great chance to admire AC45 catamarans hitting speeds in excess of 20 knots, right out of the box!

The AC45 will allow all America's Cup teams to grow their experience on wingsailed multihulls. The 45 will be used throughout 2012 in the America's Cup World Series events. AC45 - designed by the ORACLE Racing design and engineering team – is an high-tech, grand prix race boat, powered by a wing that towers over 20 meters above the deck and has already demonstrated excellent performance in winds from 5 to 30 knots. The America's Cup World Series allows the teams and their sailors to prepare for the Louis Vuitton Cup and the America's Cup Finals. With the switch to the AC45 class of cutting-edge multihulls, powered by towering wingsails, this time on the race courses will benefit all of the sailors. Equally, the regattas are bringing America's Cup racing to fans around the world and giving – in particular for Marhaba guests - the opportunity to experience the action up close and personal.

Please visit <http://www.americascup.com/en/Events/2011-2012-world-series/acws-2012-naples-italy/About/> for additional infos.

Ocea Shipbuilding completed the building motor yacht MARHABA in 2007. MARHABA had design compiled by Joubert - Nivelt and Joubert - Nivelt. This 33 metres superyacht is able to accommodate in 4 staterooms the total of 9 passengers all on board in 1 Double and 3 Twin Bed Cabins + 1 Pullman bed and 4 crew members and let them cruise West Med. This very elegant "fast commuter" will take guest to fascinating cruises from March 2012 in Cote d'Azur, long a romantic week end in Portofino or for a Easter week long vacation. Timeless classic lines for interiors and supreme exterior spaces for a number of sunbeds over the 3 decks are other relevant concerns of this refined boat. On the upper deck guest can find immense spaces and 12 people table for parties and moon light dinners.

CHARTER RATES

High Season (July & August): € 48.000 per week/MYBA

Low Season (other periods): € 46.000 per week/MYBA

CRUISING AREA

West Mediterranean and ACS in Naples

More about Marhaba 108' fast commuter

Shipyard Work & Naval Architecture for Luxury Yacht MARHABA

Joubert-Nivelt was the naval architecture company involved in the professional superyacht composition for MARHABA. Also the company Joubert-Nivelt expertly worked on this project. Interior designer Owner was responsible for the internal interior styling. France is the country that Ocea Shipbuilding built their new build motor yacht in. After her formal launch in Les Sables D'olonne she was thereafter passed over to the owner following sea trials.

With a maximum beam of 6.8 metres or 22.3 ft, a 1.9m (6.23ft) draught (maximum depth) she is reasonably shallow. The material aluminium was used in the building of the hull of the motor yacht. Her superstructure above deck is built out of aluminium.

Main Engines, speed/range

C18 B RATING engine installed in the motor yacht is made by CATERPILLAR. Coupled to the MARHABA engines are twin screw propellers. The main engines of the yacht creates 450 horse power. She is equipped with 2 engines. Consumption of 55 litres/hour (at 12 knots which is her cruise speed and top speed of 15 knots. Marhaba has a total fuel tank of 22.400 litres and great fresh water capacity of 3.800 litres for real long Mediterranean cruises.

About Floating Life

Floating Life Holding is a Swiss company, specialized in the management, charter and sales of super- and mega-yachts. Floating Life manages the "company boat" in a completely professional manner for the owner, relieving him of any possible problems related to the management of his yacht. To better develop our project of excellent client service with the highest specialization, **Floating Life** has restructured as a **Group**. The **Holding** controls the following companies: **Floating Life Charter & Broker, Floating Life International** dedicated to the core business of the Group, the **yacht management** (including the management of the Yacht Plus fractional ownership program), to the **Crew Management** and **New Custom Construction & Survey**. The other company is **Floating Life Italy**, which already manages the *Floating Life Style Brand for crew uniform* production.

The holding is expanding its' range of action through **several agencies** in Moscow, India, the Caribbean (Antigua) and Brazil, in addition to those already operative in **Monaco**.

The "**Concierge**" **Office** is the way by which the **companies of the Group and the customers interface with** and consists of **3 people active 24h/7/365**. This facility - which operates across the companies - is filtering and sorting every kind of requests over the internal resources. By this Concierge office, Floating Life is to be able to the **quicker reply for each customer's needs**, in a view of a "global satisfaction" of all needs.

Since 2009 Floating Life is part of the Yacht Plus program, the unique **fractional ownership program for super yachts**. With a fleet of 41 meters sister ships, designed by Foster+Partners and built at the Rodriguez Cantieri Navali, Floating life manages the fleet's front desk together with the owners.
